Overview – Clubs Autumn Term 2026

Dungeons & Dragons Club

Dungeons & Dragons (D&D) is a role-playing game where friends work together to create an exciting, shared story through imaginative play. Each week, children will develop their creativity, problem-solving and teamwork skills while embarking on new adventures. Playing D&D can also help reduce stress, build social connections and boost self-confidence.

Sewing Club

Our Freestyle Sewing and Craft Club encourages creativity, patience and practical life skills. This term, children will be designing and creating their own bookmarks while learning a range of new stitches and sewing techniques. As they complete their projects, they will develop confidence, fine motor skills and the ability to work collaboratively with others.

Yoga Club

Yoga Club is a relaxing and enjoyable way to end a busy school day. Through a variety of stretches and yoga poses, children will improve their flexibility, balance and range of movement. We will learn poses such as planks and warrior sequences, which help develop core strength and muscle tone. Yoga also promotes better sleep, reduces stress and supports overall wellbeing.

Gardening Club

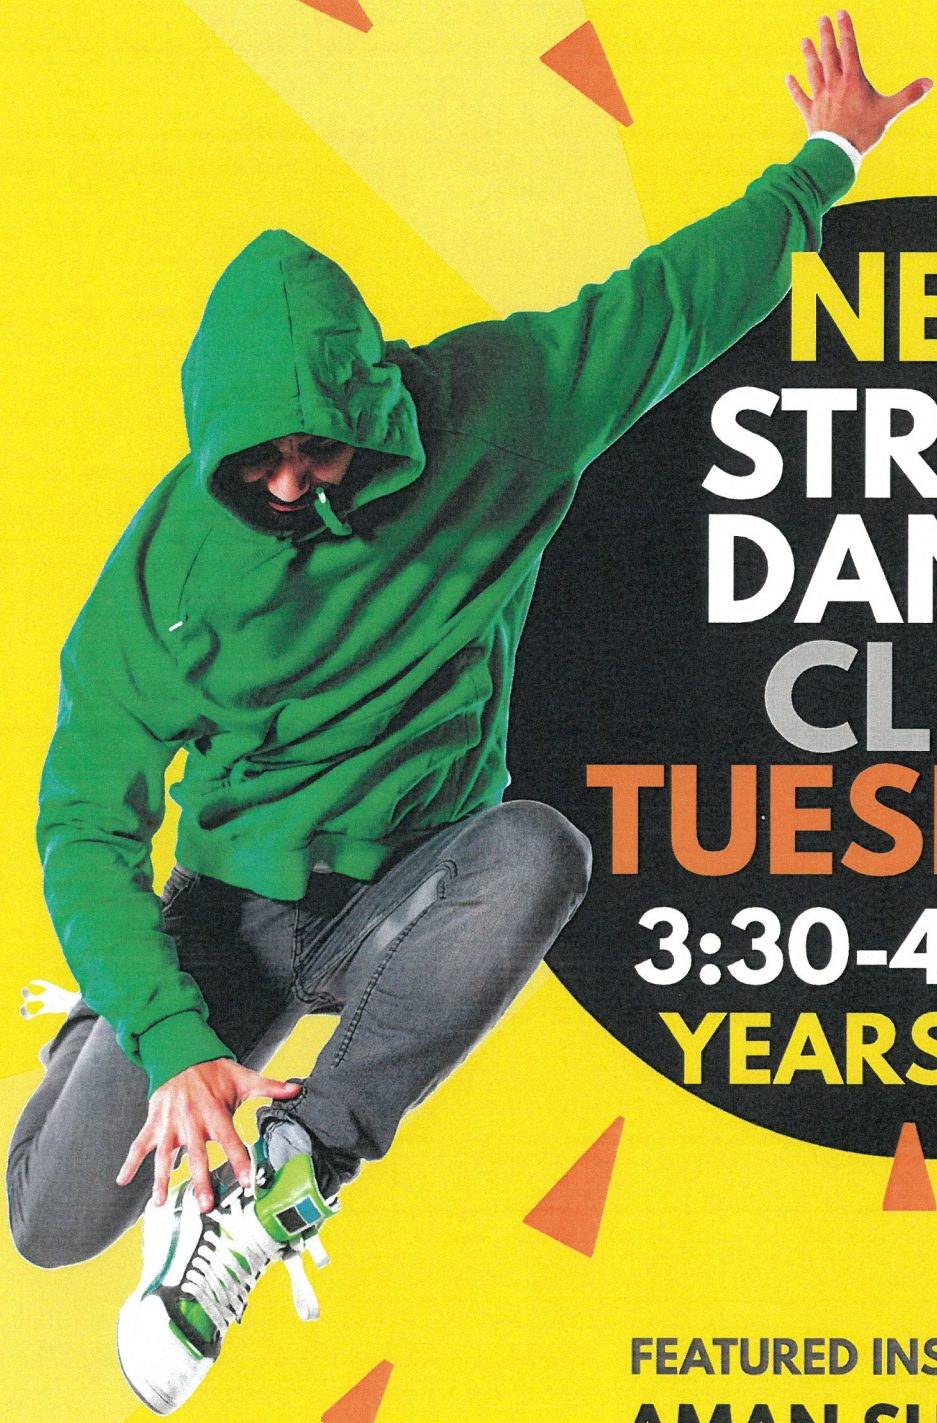

Following the RHS Schools Gardening Programme, children will learn how to grow and care for plants throughout the term. They will explore how to choose suitable plants, sow seeds and nurture them through regular watering, weeding and maintenance. As well as gardening, children will enjoy creating nature-inspired crafts, such as bug houses and seasonal decorations. It is always exciting to watch plants grow and thrive over the course of the term.

Hockey Club

Hockey Club is a fun and energetic way to develop sporting skills and teamwork. Children will learn how to use a hockey stick safely, control and pass the ball, work effectively as a team and understand the rules of the game. As their skills progress, they will take part in small-sided matches and friendly competitions.

Coding Club

In Coding Club, children will develop computational thinking by learning how to break complex problems into smaller, manageable steps. They will build creativity and design skills while creating games and interactive projects using beginner-friendly programming platforms. The club encourages logical thinking, problem-solving and innovation.

TECHNOkids
CODING + STEM + AI

At **Technokids** children learn how to make their ideas come to life! We bring **a variety of Computers, Tablets, Tech kits & Robots into school** and teach Digital skills, Creative Coding and STEM modules.

Our fun learning sessions are equally popular with **both boys & girls!** Joining Technokids is a fantastic way for them to improve their **Digital & STEM skills** in a social context - and get a great headstart in Coding and Programming! Over 20 modules available + a wide range of apps and activities focusing on **logical reasoning & creative design.**

We believe that for children to **genuinely develop** in computing they should use a **wide range of programs, devices and platforms.** We aim to equip children with the confidence and skills needed to **understand, make and create technology**!

CHESS CLUB

NEW PLAYERS WELCOME

FULL STEAM AHEAD FOR THE SMARTEST KIDS ON THE PLANET!

We are delighted to be able to offer chess club at Burlington Junior School, chess club is open to children in Year 3 to 6, it will be held on a Wednesday lunch time from **12.25 – 13.25**. All children need to bring a packed lunch to attend chess club.

Start Date: Wednesday 23rd September
End Date: Wednesday 2nd December

Chess club welcomes complete beginners to more advanced players, all the children will be learning chess openings and check mates. In the autumn term the children will play matches in school to find The Burlington Junior School Chess Champions, winning trophies, medals and rosettes will be awarded at prize giving assembly. The school chess team will also be playing matches against local schools.

In order to improve your child's chess skills, I would recommend they try and play three games of chess a week. I would also advise purchasing a tournament chess mat and pieces and a digital chess clock. The book "Beginner to Winner" by Michael Basman is also available to purchase and offers a good basis for new players.

To join chess club please email Mrs Gledhill juniorchessmasters@hotmail.com and make payment, you only need to complete the form if you are new to chess club or your contact/medical details have changed.

Judo at Burlington
on
Monday after school!

About Judo
Judo is a modern Olympic sport originating in Japan, which uses techniques and quick reflexes to get a partner off balance and take them down to the mat. It combines the ancient culture of the orient with today's concept of sport, fair play, sense of achievement and the fun of taking part.

Classes follow the British Judo Association Syllabus. Judo helps physical fitness, co-ordination and discipline. It also develops confidence and encourages interaction with others.

Judo suits are available to purchase but not compulsory at any stage. We recommend beginning lessons wearing PE kit or similar loose clothing.

About Academy Judo
Lloyd Nicholls has been teaching judo across the south-east for over 25 years. He is a 3rd Dan black belt and senior qualified coach recognised by the British Judo Association; he is a former South England Master's Champion and southern area team manager.

Limited spaces available - to book your child a space please use the following link.
